Stacking kit with work top

Gain valuable space

Instructions for use:

1 First disconnect electricity. Click the plastic plates into the bottom of the frame and stick the anti-slip pads on. Also stick 4 anti-slip pads on the top of the frame. Make sure that these come exactly under the feet of the dryer.

2 Place the intermediate frame centrally on the washing machine.

3 Put the strap around the washing machine and insert the strap into the slots provided. Note: Keep the belt straight.

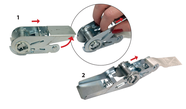
4 Place the dryer centrally on the intermediate frame, as shown in the picture.

5 Pass the belt through the slot in the cover.

6 Open the ratchet and insert the belt from the back into the slot. Then pull it through.

7 Pull the strap and ratchet it down so that it is tight around the washing machine and dryer.

8 Push the ratchet lever downwards to lock it and close it with the cover.



Instruction to release system.
