Q LEGO® Builder

Meet the Fan Designer

 Damian Andres (LEGO® Ideas name YELLOW BRICK) is a YouTuber and student from Belgium. This set is based on a previous model Damien created for LEGO Ideas, the 21349 Tuxedo Cat:

"Originally, I just wanted to build a model for myself that looked like our own cat, Miro, so my original design was inspired by his colours and personality. I also measured him and did a lot of research to get the right shapes and proportions. I didn't have much experience building organic shapes, so it wasn't easy! The biggest challenge was the head. Finding a well-shaped face that looks realistic was very difficult. When I updated the design and decided to post it on the LEGO Ideas website, I didn't expect to get 10,000 supporters, I just did it mostly for fun. It's been crazy and amazing to see the Tuxedo Cat find so many loving new homes over the past couple of years, and it's unreal to now be part of this project, too, and know that it has a cute new friend!"

*Damien's original submission,
inspired by his cat, Miro*

*This could be the beginning of a
fantastic feline friendship*

Pumpkin, Ginger, Fiery Overlord

🐾 Cat owners have long suspected that orange cats are in a league of their own, and orange cats know this. As our fiercely charming overlords, these cats have a certain reputation to uphold, and they waste zero time living up to it. OK, we know their personality is not tied to their fur colour – maybe their vibrant coat just makes them *seem* extra flamboyant? Either way, we know and adore them as the stuntmen of the feline world, seemingly fuelled by a mix of chaotic enthusiasm, bold confidence and a flair for grand entrances (and exits).

They fling themselves off the fridge in pursuit of a fly that may or may not exist. They proudly squeeze into containers three sizes too small, like veritable contortionists, and defiantly serenade you while pushing your favourite mug off the counter. It's sometimes hard to tell if they're trying to impress fellow felines or their humble human staff with their antics – or if they're just gloriously oblivious to any consequences. Whatever their motives, when they snuggle up to us with slow-blinks and purrs, they can get away with anything. May we all be inspired by their insatiable zest for life!

From the LEGO® Ideas Design Team

 We've been blown away by the love Tuxedo Cat has received since its release! Since it landed on the shelves (on all four paws, of course), many builders have asked for cats in other colours. As fellow cat people, our team is excited to give you (and Tuxedo Cat) this cute new buddy. Green eyes were a big request, so we designed a set for this model that is compatible with the original cat, along with a set of brown eyes – and all four eye colours are interchangeable.

The main colour of this cat is a 'Medium Nougat', the closest LEGO® approximation of an orange cat's actual colour. We've introduced a bit of asymmetry to the face pattern and 'pagoda plate' elements to mimic tufts of fur curling outwards from the model. In addition to changing its eye colours, your LEGO cat can express different attitudes depending on how you pose the paws, tail, head and mouth. Mischievous, cute and cuddly looking, it's built to thrive in your creative environment.

If you have Tuxedo Cat already, the two cats can sit next to each other without their tails getting tangled.

New LEGO® elements give the mouth an open-or-closed option.

Switch eye colours – or mix for an even cuter look.

A 'neck stopper' creates a realistic head rotation range. (If you want to rotate the head further, just remove the red element).
