THE BIG APPLE

New York, New York – the city that never sleeps, city of dreams, the Big Apple – the city known by many names as a place of boundless energy and opportunity. Founded in 1624 as 'New Amsterdam', it has evolved into a vibrant beacon of culture, trade, art and innovation. New York City's iconic skyline features instantly recognisable landmarks spread across its five boroughs. From the Statue of Liberty welcoming newcomers to the lively streets that inspire us to chase our dreams, the city's unique pulse captures the hearts of both visitors and residents. The borough of Manhattan alone is home to over 1.5 million people packed into just 23 square miles (59 sq. km), making it one of the most densely populated places on Earth. Whether you're drawn to its bright lights and buzz, or the peaceful paths of Central Park, the city's spirit, rich history and diversity is guaranteed to leave a lasting impression.

ONE WORLD TRADE CENTER (2014)

To date, One World Trade Center is the tallest building in the Western Hemisphere, built as a symbol of unity and resilience.

EMPIRE STATE BUILDING (1931)

The 102-storey New York icon offers stunning views of the city from the heart of Midtown Manhattan.

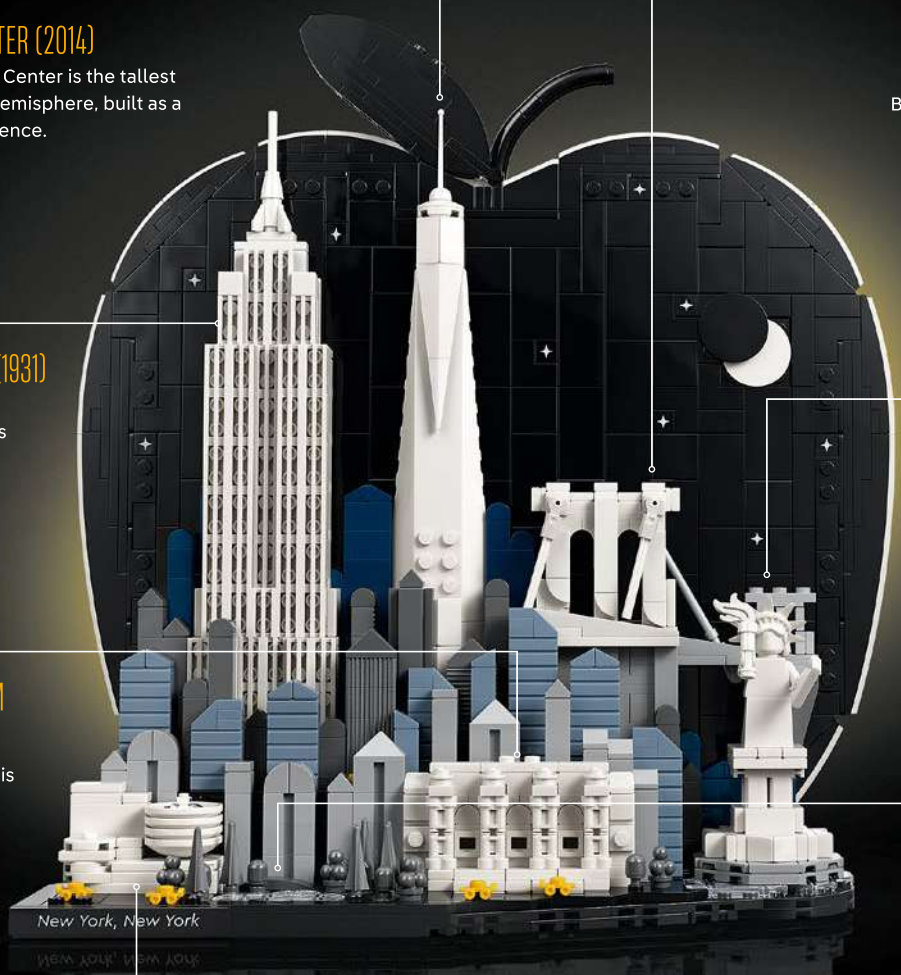

METROPOLITAN MUSEUM OF ART (1870)

Founded in 1870, The Met is one of the world's largest museums, showcasing more than 5,000 years of art history and modern masterpieces.

SOLOMON R. GUGGENHEIM MUSEUM (1959)

Since it opened, the museum has been recognised for its spiral architecture and world-class collection of modern and contemporary art.

BROOKLYN BRIDGE (1883)

Spanning more than a mile, Brooklyn Bridge was the longest suspension bridge in the world when it opened.

STATUE OF LIBERTY (1886)

The grand neoclassical statue stands on Liberty Island in New York Harbour, originally the most famed port of entry to the U.S.

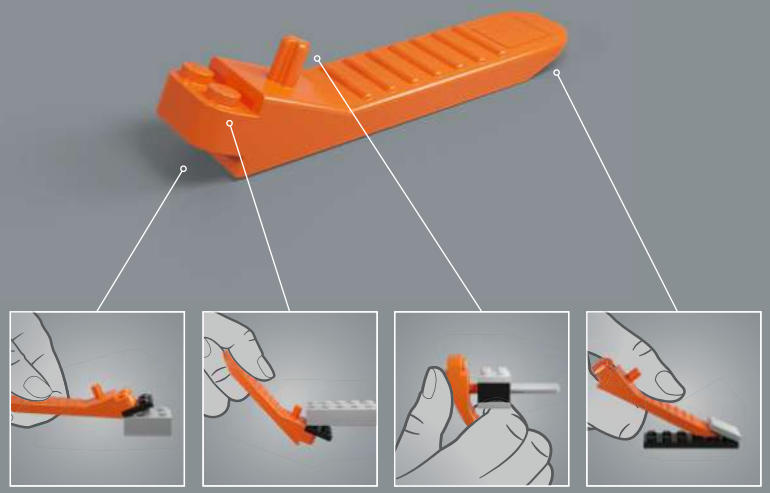

CENTRAL PARK (1858)

Central Park welcomes 42 million visitors a year to its 341.1 ha (843 ac.) of meadows, trails and lakes.

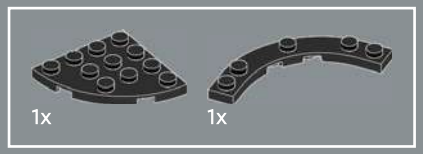

FROM THE LEGO® ARCHITECTURE DESIGN TEAM

2026 marks the 250th anniversary of the signing of the United States Declaration of Independence AND the 10th anniversary of our first LEGO® Architecture New York City Skyline set! That inspired us to celebrate both occasions, with famous New York landmarks reinterpreted against a 'Big Apple' backdrop depicting a night sky. We used faceted elements to replicate the intricate geometry of One World Trade Center as it rests on the 'shoulders' of the Empire State Building and tapers as it rises. LEGO grille plates make up the windows and long upwards Art Deco lines on the Empire State Building. The build of the Brooklyn Bridge plays with a forced perspective effect, by drastically changing the size, adding colour variations in both towers and adding a slight angle to the road. With other iconic details, like 'Lady Liberty' as a minifigure, we hope you have fun building and exploring this magnificent city!

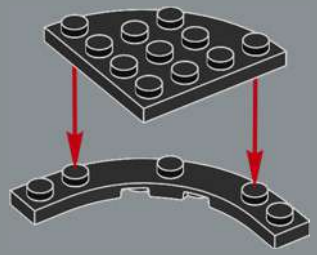

New York, New York

The base of the model is inspired by the largest New York borough, the Island of Manhattan.

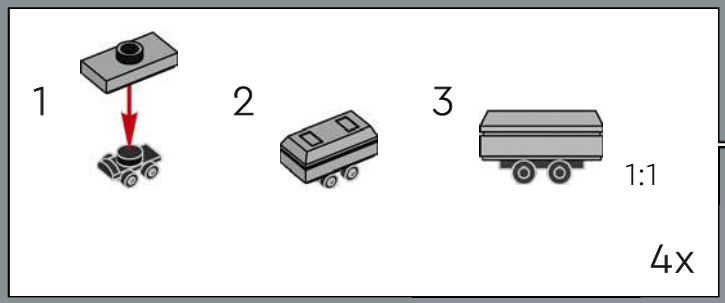

28

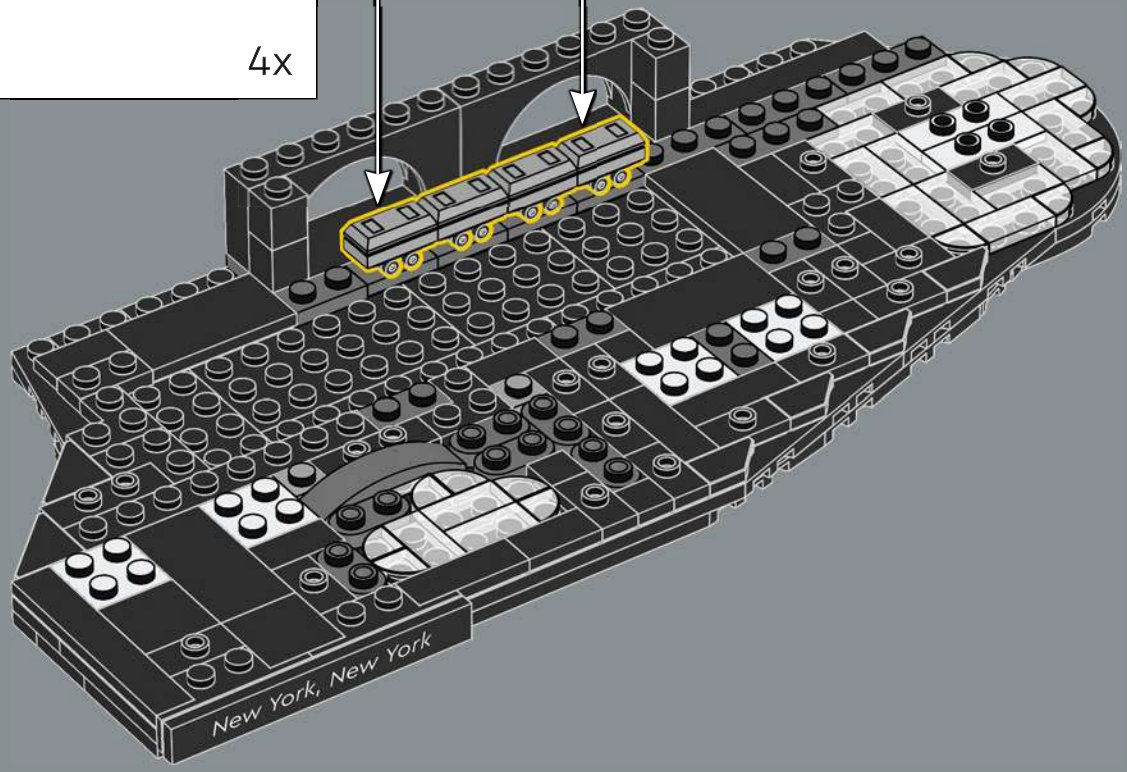

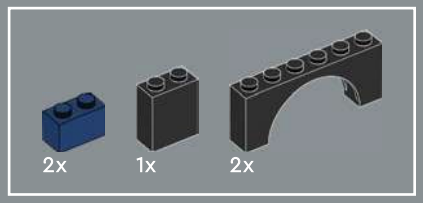

If you placed all 842 miles (1,355 km) of track in the New York subway system in a straight line, they would reach all the way from New York City to Chicago.
