MASTER MOVING MACHINE

If you want to move lots of anything, then the best way to do it is with a Cat® Dozer. From large to smaller machines and for carrying out all types of tasks, there are more Cat® Dozers at work in the world than any other brand. The D11 is the biggest and most powerful dozer in the Cat® range and the perfect challenge to recreate in LEGO® Technic elements.

MAKING THE BEST EVEN BETTER

The D11 isn't only the largest and most powerful dozer in the Cat® range, it's also the most advanced. Innovative features such as a machine protection strategy, as well as a machine guidance system, ensure higher productivity and the ultimate performance. The latest technology provides the operator with full command of the dozer for safe and efficient operation. Likewise, the LEGO® Technic version of the Cat® Dozer is much more than just a static model.

CONTROL+ adds a whole new level of realism with lifelike driving and operating functions, accurate sound effects, authentic controls and real-time data feedback.

**MARKUS
KOSSMANN**
Design Master,
LEGO® Technic

BUILD FOR REAL

With over 20 years' experience of creating large-scale, complex construction vehicles in LEGO® Technic elements, Markus Kossmann was the perfect designer for this set. As always, the goal was to re-create as many of the features and functions from the real dozer as possible. This can be seen in the many small details and also in the way the model replicates the working movements of the real D11 using the CONTROL+ app.

“

YOU ASSEMBLE THIS MODEL EXACTLY LIKE THE REAL D11 DOZER.”

Markus Kossmann, Design Master, LEGO® Technic

The full-size D11 is too big to be transported in one piece, so it's built in modules and assembled on site. The LEGO Technic version of the dozer authentically replicates this entire process.
