Prijevod originalnih uputa

LAHTI PRO

SIGNALIZIRAJUĆI PRSLUK, šifra proizvoda: L41322 (Y103-Y), L41323 (Y103-O)

MOLIMO PROČITAJTE OVAJ PRIRUČNIK PRIJE UPORABE PROIZVODA.

Držite priručnik za buduću upotrebu.

UPOZORENJE! Pročitajte sva sigurnosna upozorenja i sve sigurnosne upute.

Signalizirajući prsluk – u daljnjem tekstu „odjeća“ ili „zaštitna odjeća“ je proizveden prema normi EN ISO 20471:2013+A1:2016 i prema Uredbi 2016/425. Adresa web stranice na kojoj možete pristupiti EU izjavi o sukladnosti: www.lahtipro.fi

Prijavljeno tijelo be.0197 sudjelovalo je u postupku ocjene sukladnosti: **TÜV Rheinland LGA Products GmbH** Tillystraße 290431 Nürnberg.

Ova odjeća pripada II kategoriji osobne zaštitne opreme i namijenjena je, za primjenu u situacijama u kojima prisutnost osobe mora biti signalizirana vizualno, kako po danu, tako i po noći, u uvjetima umjetnog osvijetljenja ili ograničenog prirodnog osvijetljenja.

X – objašnjenje X – klasa odjegov predmeta

1. UPORABA

Većinu odjeće treba odabrati na pravi način. Prilikom odabira veličine odjeće treba imati na umu da je ona udobna i daje slobodu pokreta. Provjerite veličinu isprobavajući odjeću prije početka rada.

Zaštitnu odjeću treba odabrati na odgovarajući način za upotrebu na radnom mjestu.

Zaštitnu odjeću uvijek treba nositi za vrijeme bilo koje posla tijekom kojeg se osoba mora vizualno signalizirati. Prsluk nositi preko radnog odijela. Tijekom korištenja niti na koji način nije dopušteno prekrivati prsluk.

Ne dopustite jaku prijavitinu.

2. MATERIJAL

Odjeća je izrađena od poliestera (100%).

Materijal koji se koristi za proizvodnju ne bi trebali izazivati iritaciju kože ili alergijske reakcije. Međutim, mogu biti izuzetno rijetki i izolirani slučajevi takvih reakcija kod ljudi koji su posebno alergični na plastiku. Trebate pristupiti koristiti ovu odjeću i posavjetovati se s liječnikom. U proizvodnji nisu korišteni materijali koji mogu izazvati alergijske reakcije ili bi izazvali alergijske reakcije kod ljudi koji su osjetljivi na mutageni.

3. OGRANIČENJA ZAŠTITE

Razina zaštite odnosi se samo na materijal od kojeg je odjeća odjevena i vrijedi samo za novu, neopranu, ne popravljenu odjeću. Ova razina zaštite temelji se na ispitivanju provedenom u skladu s gore navedenim, norme za novu odjeću ne uključuju promjene koje su rezultat njihovog trošenja.

- a) vatre ili vruće površine – nema otpora;
- b) niske temperature – nema otpora;
- c) otapala – nema otpora;

NAVODILA ZA UPORABU ZAŠTITNE OBLEKE
Prevod izvirnih navodila za uporabu

LAHTI PRO

OPOZORILO! JOPJĆ, kod izdelka: L41322 (Y103-Y), L41323 (Y103-O)

PRED UPORABO IZDELKA SE SEZNANITE Z NAVODILI ZA UPORABO.

Shranite navodila za morebitno kasnejšo uporabo.

OPOZORILO! Pozorno preberite vsa opozorila in navodila za varno uporabo izdelka.

Opozorilni jopj (v nadaljevanju imenovan oblačilo ali "zaščitna obleka") je proizveden v skladu s standardom EN ISO 20471:2013+A1:2016 in Uredbo 2016/425. Naslov spletni strani, na kateri lahko dostopate do izjave o skladnosti EU: www.lahtipro.fi

V postopku ugotavljanja skladnosti z zahtevami je sodeloval prijavljeni organ št. 0197: **TÜV Rheinland LGA Products GmbH** Tillystraße 2 90431 Nürnberg.

Ova obleka je posebna varovalna oprema **kategorije II**, namenjena zaščiti v okolčinah, kjer mora biti prisotnost uporabnika vizualno razpoznavna zaradi zagotovitve njegove vidnosti podnevi in ponoči pri osvetlitvi z različni vzhvi, i pogojih umetne svetlobe ali omejenenaravne svetlobe.

X – pri čemer X pomeni – razred tekstilnega proizvoda

1. UPORABA

Izbirati morate ustrezno velikost oblačila. Pri izbiri velikosti oblačila bodite pozorni na to, da bo vaše telo v njem počutilo udobno in da svoboda gibanja ne bo omejena. Pred začetkom dela pometite oblačilo in preverite, ali je njegova velikost ustrezna.

Zaščitna obleka mora biti ustrezno izbrana glede na uporabo na danem delovnem mestu.

Zaščitno obleko je treba nositi vs čas med opravljanjem del, pri katerih mora biti prisotnost osebe vizualno razpoznavna. Jopj je treba obleči preko delovne obleke. Med uporabo na noben način ne prekrivajte opozorilnega znaka.

Preprečite močno onesnaženost obleke.

2. MATERIJAL

Oblačilo so izdelana iz poliestra (100%). Uporabljeni materiali praviloma ne povzročajo draženja kože ali alergijskih odzivov. V posameznih, zelo redkih primerih lahko pride do odziva kože pri osebah, ki so občutljive na umetne mase. V tem primeru je treba prenehati z njihovo uporabo in se posvetovati z zdravnikom. Pri proizvodnji izdelka niso bili uporabljeni materiali, ki lahko povzročijo alergijske odzive ali so lahko rakotvorni, strupeni ali mutageni.

3. OMEJITVE ZAŠČITE
Stopnja zaščite se nanaša samo na material, iz katerega je sešito oblačilo, in velja samo za novo, neoprano in neobdelana oblačila. Navedeni zaščitni nivo temelji na preizkuhu, opravljenem v skladu z zgoraj navedenimi podatki na novih oblačilih in ne vključuje sprememb, ki so posledica njihove obrabe.

- a) izpostavljenost ognju ali vročim površinam – brez odpornosti;
- b) izpostavljenost niskim temperaturam – brez odpornosti;

USER INSTRUCTIONS FOR PROTECTIVE CLOTHING
Original text translation

LAHTI PRO

WARNING VEST, product code: L41322 (Y103-Y), L41323 (Y103-O)

PRIOR TO STARTING WEARING THE PRODUCT IT IS MANDATORY TO GET FAMILIAR WITH THE FOLLOWING INSTRUCTIONS.

Keep these instructions for future reference.

WARNING! Read all safety warnings and safety use recommendations.

Warning vest – hereinafter the "clothes" or "protective clothing" is manufactured in accordance with the EN ISO 20471:2013+A1:2016 standards and Regulation 2016/425. The internet address for the EU declaration of conformity can be accessed: www.lahtipro.fi

In the process of compliance assessment participated the notified body No. 0197: **TÜV Rheinland LGA Products GmbH** Tillystraße 290431 Nürnberg.

This clothing belongs to the II category of personal protection aids used always when somebody's presence must be visually signalled during the day or at night, in artificial lighting conditions or when the daylight is limited.

X – where X – clothing product category

1. USE

The size of clothes should be fit accordingly with consideration for comfort of wearing. Protecting clothes, if correctly fit, should enable unrestricted movements at work. Check the clothes by trying it on before you start your work. Protecting clothes should be appropriately selected to correspond to the character of jobs on a specific workplace.

Protective clothing should be worn at all times during performance of any works which require visual signalization for the given person. The waistcoat should be put on the working outfit. When worn, the waistcoat must not be covered in any way whatsoever.

Do not dirty the waistcoat heavily.

2. MATERIAL

Clothes are made of polyester (100%). In general, none of the materials that are used for manufacturing of the product may cause irritation of skin or other allergic effects. However, single cases of such allergic response may happen to persons who by nature are allergic to plastic fibres. Under such circumstances immediately stop use the clothes and seek for medical assistance. The product is free of materials that may entail allergic reactions or may be carcinogenic, toxic or mutagenic.

6. STORAGE AND TRANSPORT
Store in original packaging in cool, dry and well-ventilated rooms, far away from any chemical, scratching and abrasive materials. Protect against UV radiation and direct impact of heat.

During transportation the clothes should be protected against the effect of weather factors and mechanical damage.

3. LIMITATION OF PROTECTION

Protection level applies only to the material used for making the clothing and applies only to new clothes which have not been washed or repaired. The above protection level corresponds to the test carried out, in accordance with the above rule, for new clothes and does not reflect any changes due to wear and tear.

- a) effect of fire or hot surfaces – no resistance
- b) effect of cold temperatures – no resistance
- c) solvent and thinners – no resistance
- d) chemicals, acids, alkali – no resistance
- e) caustic agents – no resistance
