NOTRE-DAME DE PARIS

 "It's hard to imagine Paris without the majestic Notre-Dame Cathedral. Over the centuries, the spectacular landmark has weathered the elements, revolution and devastating destruction, and remains one of the most popular tourist attractions in Paris. When you see it in all its seemingly gravity-defying splendour, you may wonder how architects, masons and builders created such a monument, starting nearly 900 years ago, with construction going on for centuries. Inspired and awed by the ingenious techniques employed by these craftsmen, we set out to 'translate' this magnificent construction and its intricate details into a LEGO® model."

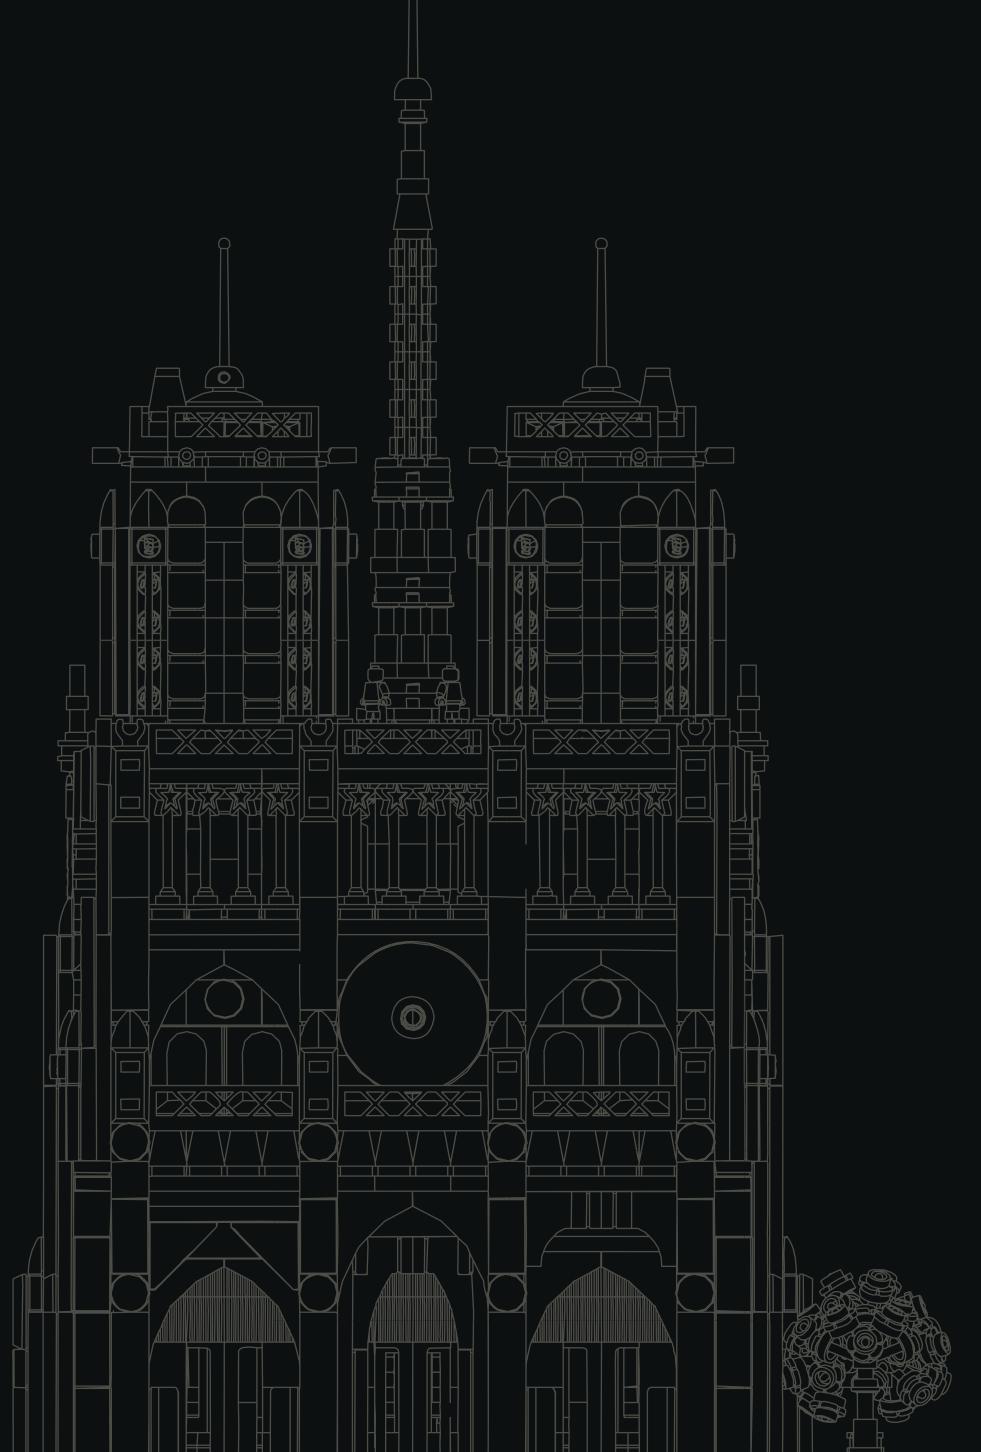

"These instructions will guide you through the building process, with each brick carefully placed to correspond with a specific architectural element in the original cathedral. With every bag you complete, you will see a model of a specific point in time in the construction of the cathedral, from 1163 to today."

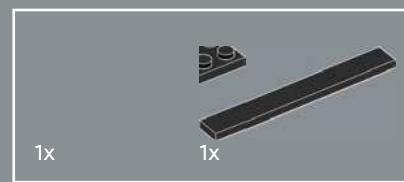

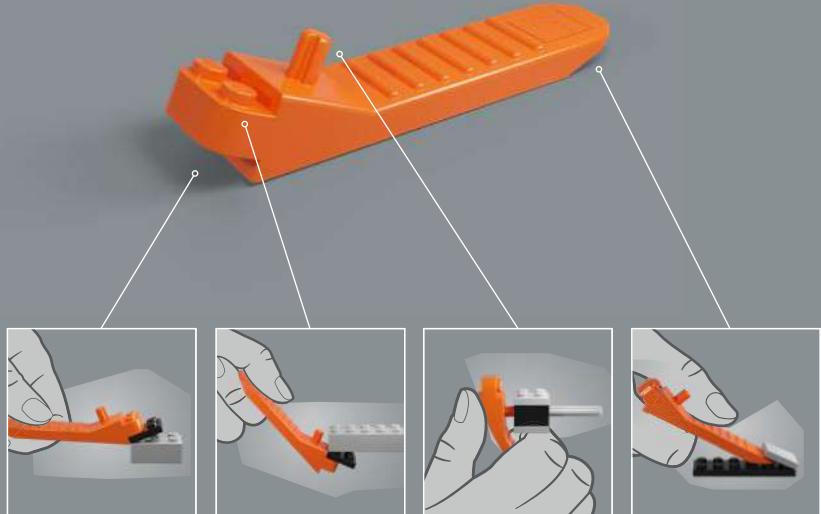

Rok Žgalin Kobe, Senior LEGO Designer

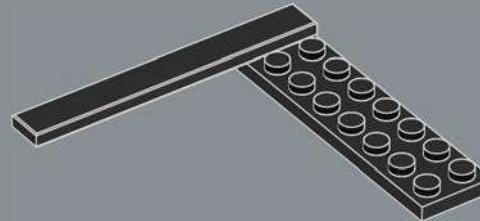

1163-1182: The east side of the cathedral was completed first and served as a functioning church while construction continued on the rest of the cathedral.

A LEGO® LANDMARK TAKES SHAPE

1182-1200

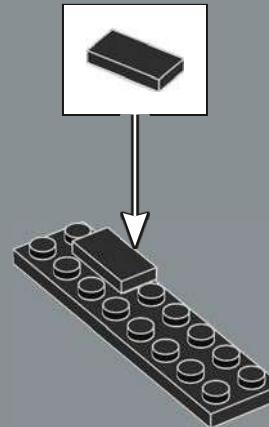

*Construction work continues in the transept and
in the bays on the south side of the nave.*

At 128 m (419.9 ft.) long, 48 m (157.4 ft.) wide was built on the site of an existing cathedral on île eastern section functioned as an interim church, in the first bays on the south side of the nave. From the original Romanesque architectural style, the construction gradually incorporated contemporary architectural styles, evolving into the Gothic style it represents today. This model stays faithful to the construction of both the structure within and the external architectural details – with certain features scaled down – to recreate the awe-inspiring view that has met visitors through the centuries.
