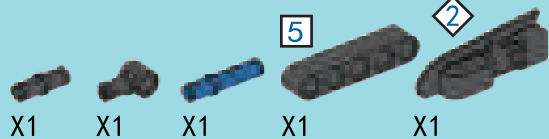

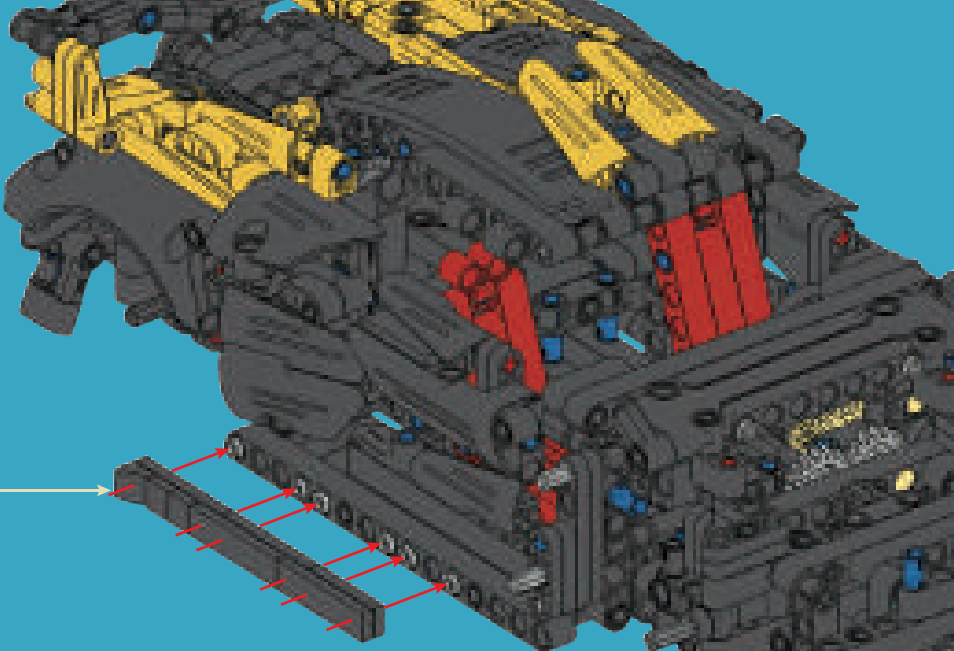

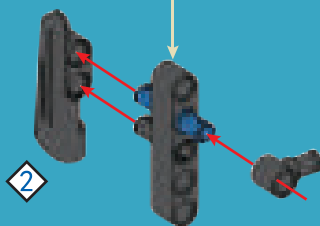

Diagram 5 shows a 1x4 Technic beam being attached to the side of the 1x10 Technic beam. The 1x4 beam is shown in two positions: one being moved towards the 1x10 beam and another already attached to the side. Red arrows indicate the direction of movement.

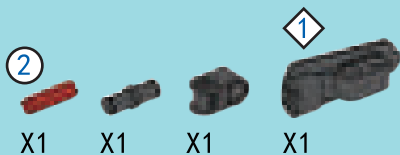

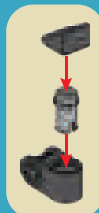

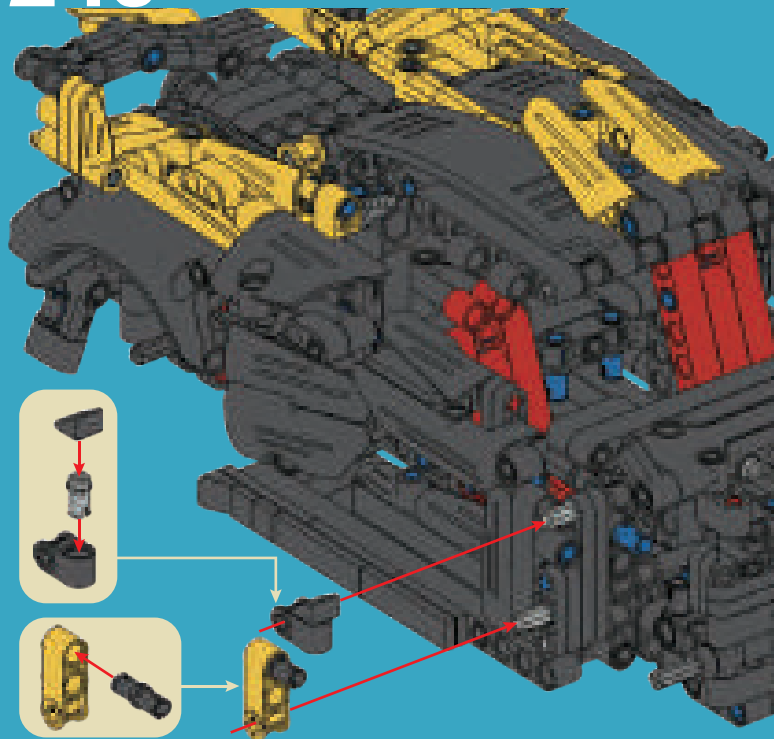

This close-up view shows the internal mechanism of the engine. A red piston is connected to a red connecting rod, which is attached to a grey crankshaft. The assembly is built using various grey and black Technic beams and connectors. A red arrow points to a specific connection point on the crankshaft.
