The Deco Rectangular Planter is equipped with an integral water basin and a drainage tray below. This makes it easy for you to grow beautiful, healthy plants that have all the moisture they need. All you need to do is keep an eye on the drainage tray water level. When the water drops to the minimum level, wait a few days and then water the plants. The number of days you wait depends on the type of plant and your growing environment. Please note: if you overwater your plant, excess water will spill over the drainage tray.

La jardinière rectangulaire Deco est équipée d'un bassin d'eau et d'un gobelet de drainage afin de vous permettre de cultiver plus facilement de belles plantes saines qui reçoivent toute la nourriture dont elles ont besoin. Il suffit de surveiller le niveau d'eau de la coupelle de drainage. Si le niveau d'eau descend à sa hauteur minimale, vous devez attendre quelques jours avant d'arroser vos plantes. Le nombre précis de jours d'attente dépend du type de plante et de l'environnement de culture. Veuillez noter que si vous arrosez trop votre plante, l'excès d'eau se répandra à l'extérieur de la coupelle de drainage.

El macetero rectangular Deco está equipado con un recipiente de agua integrado y una bandeja de drenaje ubicada debajo. Esto le facilitará el cultivo de plantas hermosas y sanas que contarán con toda la humedad que necesiten. Todo lo que deberá hacer es vigilar el nivel de agua de la bandeja de drenaje. Cuando el agua baje al nivel mínimo, espere algunos días y solo entonces riegue las plantas. La cantidad de días que deberá esperar dependerá del tipo de planta y de su entorno de cultivo. Tenga en cuenta: si riega demasiado la planta, el exceso de agua se derramará sobre la bandeja de drenaje.

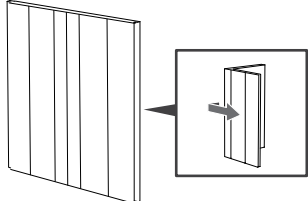

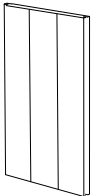

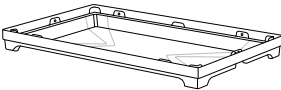

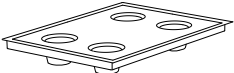

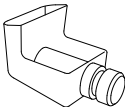

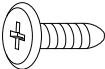

**Der dekorative rechteckige Pflanzentrog (Deco Rectangular Planter) verfügt über ein integriertes Wasserreservoir und hat unten einen Einsatz mit Bewässerungssystem. Damit gelingt die Anzucht schöner, gesunder Pflanzen, die ausreichend mit Feuchtigkeit versorgt sind, ganz leicht. Alles, worauf Sie achten müssen, ist der Wasserfüllstand im Einsatz. Nähert sich die Wasserfüllstandsanzeige der unteren Grenze, warten Sie ein paar Tage, bevor Sie die Pflanzen gießen. Die Wartezeit variiert je nach Pflanzenart und Wachstumsumgebung. Hinweis: Wenn Sie Ihre Pflanze überwässern, läuft das überschüssige Wasser in den Einsatz.**

De rechthoekige plantenbak van Deco heeft een ingebouwd waterbassin met onderin een afvoerbak. Hiermee kun je makkelijk mooie, gezonde planten kweken en krijgen ze alle voeding die ze nodig hebben. Het enige wat je hoeft te doen is het waterpeil van de afvoerbak in de gaten houden. Als het waterpeil tot het minimum is gezakt, wacht dan een paar dagen voor je de planten water geeft. Hoeveel dagen je precies moet wachten, is afhankelijk van het type plant en de omgeving. Let op: als je de plant te veel water geeft, kan de afvoerbak overstromen.

**O Vaso de Plantas Retangular Deco é equipado com uma bacia de água integral e com uma bandeja de drenagem por baixo. Isso facilita o cultivo de plantas bonitas e saudáveis, disponibilizando toda a umidade que precisam. Basta você ficar de olho no nível de água da bandeja de drenagem. Quando o nível de água atingir o seu mínimo, espere alguns dias e depois regue as plantas. O número de dias que você vai ter que esperar vai depender do tipo de planta e do ambiente de cultivo. Atenção: se você regar demais a sua planta, a bandeja de drenagem vai transbordar devido ao excesso de água.**

La fioriera rettangolare Deco è dotata di una vasca d'acqua integrata con vassoio di drenaggio sottostante. In questo modo le piante avranno tutta l'umidità di cui hanno bisogno e cresceranno sane e forti. È sufficiente tenere sotto controllo il livello dell'acqua nella vaschetta di drenaggio. Se l'acqua scende al livello minimo, bisogna aspettare qualche giorno prima di annaffiare le piante. Il numero esatto di giorni dipende dal tipo di pianta e dall'ambiente in cui è inserita. Attenzione: se si inaffia troppo la pianta, l'acqua in eccesso traboccherà dal vassoio di drenaggio.
