

English

Description

1 High-speed measuring sensor
2 Extra gentle flexible tip
3 On/off button
4 Large display
5 Battery compartment cover (included: 1x SR41 1.55V battery)
6 Protective cap

As with any other thermometer, proper handling and storage is necessary in order to obtain accurate readings. When the thermometer is turned on, the display will show the current temperature. Please read the message "ER04" appears on the display, contact the Kitz Service Center.

Safety instructions

This thermometer is intended for household use only.

The thermometer is only suitable for the measurement of body temperature!

Always adhere to the minimum measurement time of 90 seconds (displayed as "90" on the display).

To keep the thermometer away from children.

Do not expose the thermometer to mechanical shock. Use the protective cap to prevent damage.

Do not bend the tip by more than 45°.

Do not expose the thermometer to direct sunlight or high temperatures.

Only use commercial disinfectants to clean the thermometer. The thermometer must be intact when immersed in liquid disinfectant.

Attention: The thermometer contains a SR41 1.55V battery. It is recommended to use the included battery compartment cover.

Do not immerse the thermometer in water.

Protect the thermometer from water spray less than 15 degrees from vertical.

Displayed temperature range 32.0°C to 42.9°C

Живот на батерията:

2000 измервания в рамките на 2 години
