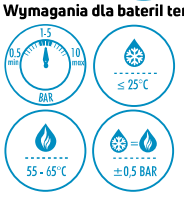
INSTALACJA

• Przed podłączeniem baterii należy przepłukać instalację w celu usunięcia zanieczyszczeń. Niezastosowanie się do tego może spowodować uszkodzenie głowicy lub obniżenie ciśnienia przepływu wody.
• Miejsce i sposób montażu musi zapewnić swobodny dostęp do ewentualnego demontażu i wykonywania czynności konserwacyjnych lub naprawczych.
• Montaż baterii powinien być przeprowadzony przez osoby z odpowiednimi kwalifikacjami. W przypadku produktu do zabudowy, Kupujący powinien sprawdzić jego sprawne funkcjonowanie przed zabudową i w obecności osoby nadzorującej pracę produktu. Ewentualne szkody powstałe na skutek niefachowego montażu lub konserwacji nie są objęte gwarancją.
• Nie zaleca się montażu armatury na wszelkiego rodzaju dodatkowych przedłużkach / reduktorach. Montaż baterii należy przeprowadzać z wykorzystaniem oryginalnych komponentów dostarczonych przez producenta.
• W celu dokupienia części należy skontaktować się z producentem pod adresem sklep@deante.pl
• W związku z możliwością występowania zanieczyszczeń w wodzie mogących spowodować uszkodzenie elementów produktu konieczne jest zastosowanie zaworków kątowych z filtrem w miejscu przyłączenia wężyków baterii stojącej lub panelu do instalacji, bądź uszczelek z sitkami do baterii ściennych i deszczowni.
• Nie używać ostrych narzędzi lub kluczy do przykręcania elastycznych węży do korpusu baterii.
• Baterie przeznaczone są do montażu wewnątrz budynków. Nie dopuścić do zamarznięcia baterii i wody wewnątrz niej. Podczas długiej nieobecności zalecane jest zakręcenie głównego zaworu wody.
• Nie pozostawiać produktów bez nadzoru podczas przeprowadzania próby ciśnieniowej i próby szczelności.
• Nie zaleca się stosowania baterii termostatycznej wraz z przepływowymi gazowymi i elektrycznymi podgrzewaczami wody.
• Producent zastrzega sobie prawo do zmian produkcyjnych i poprawek wyrobu podyktowanych postępem technologicznym i walorami estetycznymi bez uprzedniego powiadomienia.
• Producent oświadcza, że kolor (odcień) produktu z tej samej linii może nieznacznie się różnić i występować w zbliżonym odcieniu. Różnica odcienia nie stanowi o wadzie produktu a wynika z normalnego procesu produkcji.

Wymagania dla baterii innych niż termostatyczne:

Wymagania dla bateril termostatycznych:



CZYNNOŚCI KONSERWACYJNE

Użytkownik zobowiązany jest do regular
nego czyszczenia: aeratora, zaworów kulowych z filtrem, powierzchni baterii oraz sprawdzania połączeń węży, filtrów siatkowych.
Zalecamy:
• Stosować miękkie szmatki.
• Nie stosować środków na bazie chloru, alkoholu, silnych kwasów, zasad i rozpuszczalników.
• Nie stosować środków z mikrogranulkami.
• Stosować chemię biodegradowalną o delikatnej strukturze na bazie kwasów owocowych, tj. rekomendowane środki Deante.
• Podczas czyszczenia bateria powinna mieć temperaturę pokojową.
• Po zakończeniu czyszczenia dokładnie spłukać mytą powierzchnię z resztek chemii i wytrzeć do sucha.
• Nie stosować urządzeń do czyszczenia pod wysokim ciśnieniem lub parą.
Szczegóły dotyczące gwarancji znajdują się na stronie www.deante.pl
