ORACLE RED BULL RACING

DRIVEN BY **PASSION**

After winning three consecutive Formula 1® Drivers' Championships (2021-2023), and Constructors' Championships in 2022 and 2023, the Oracle Red Bull Racing team has cemented its position as a world-class racing legend. The Oracle Red Bull Racing RB20, released in 2024, builds on the successes of its predecessors. Ultra-tuned for optimised performance with a 900 hp V6 engine, the front suspension has kept its pull-rod actuation with slight modifications, and the rear suspension has evolved while maintaining push-rod geometry. The LEGO® Technic version of this celebrated icon is ready to conquer the podiums – or your shelves!

RECREATING EVERY DETAIL

Every detail inside and out mimics the real-life design: from the authentic push- and pull-rod suspension, steering and removable engine cover to the updated V6 engine block design and spinning MGU-H unit, 2-speed gearbox and adjustable spoiler. A dark-blue-and-yellow livery with sponsor logos completes the look.

Milan Reindl
LEGO® Technic
Senior Designer

FROM THE LEGO® DESIGN TEAM

This collaboration with the Oracle Red Bull Racing Design teams was a pleasure. We developed new suspension elements, including wishbones, track rods and special beams with ball cups and balls, to support the model's weight forces. The nose section had to be sturdy, narrow and elegant like the real vehicle. We hope the result will win the hearts of LEGO® Technic and Formula 1® enthusiasts alike.

FORMIDABLE ENGINEERING
