

THE COMPETITOR

WIRED CONTROLLER

USER MANUAL

Thank you for purchasing the Hyperkin The Competitor for Xbox Series X|S, Xbox One, and Windows 10/11 PC - Wired Controller. For your safety and the safety of others, please carefully read this guide before using this product.

1. Plug the provided Type-C cable into the Type-C port located on the TOP of the Hyperkin Xenon.
2. Plug the other end of the cable into an available USB port on your Xbox Series X|S, Xbox One, PC or Steam OS.
3. The controller will vibrate.
4. Click the Nexus button.
5. The ring light will illuminate.

Your controller is now ready to use.

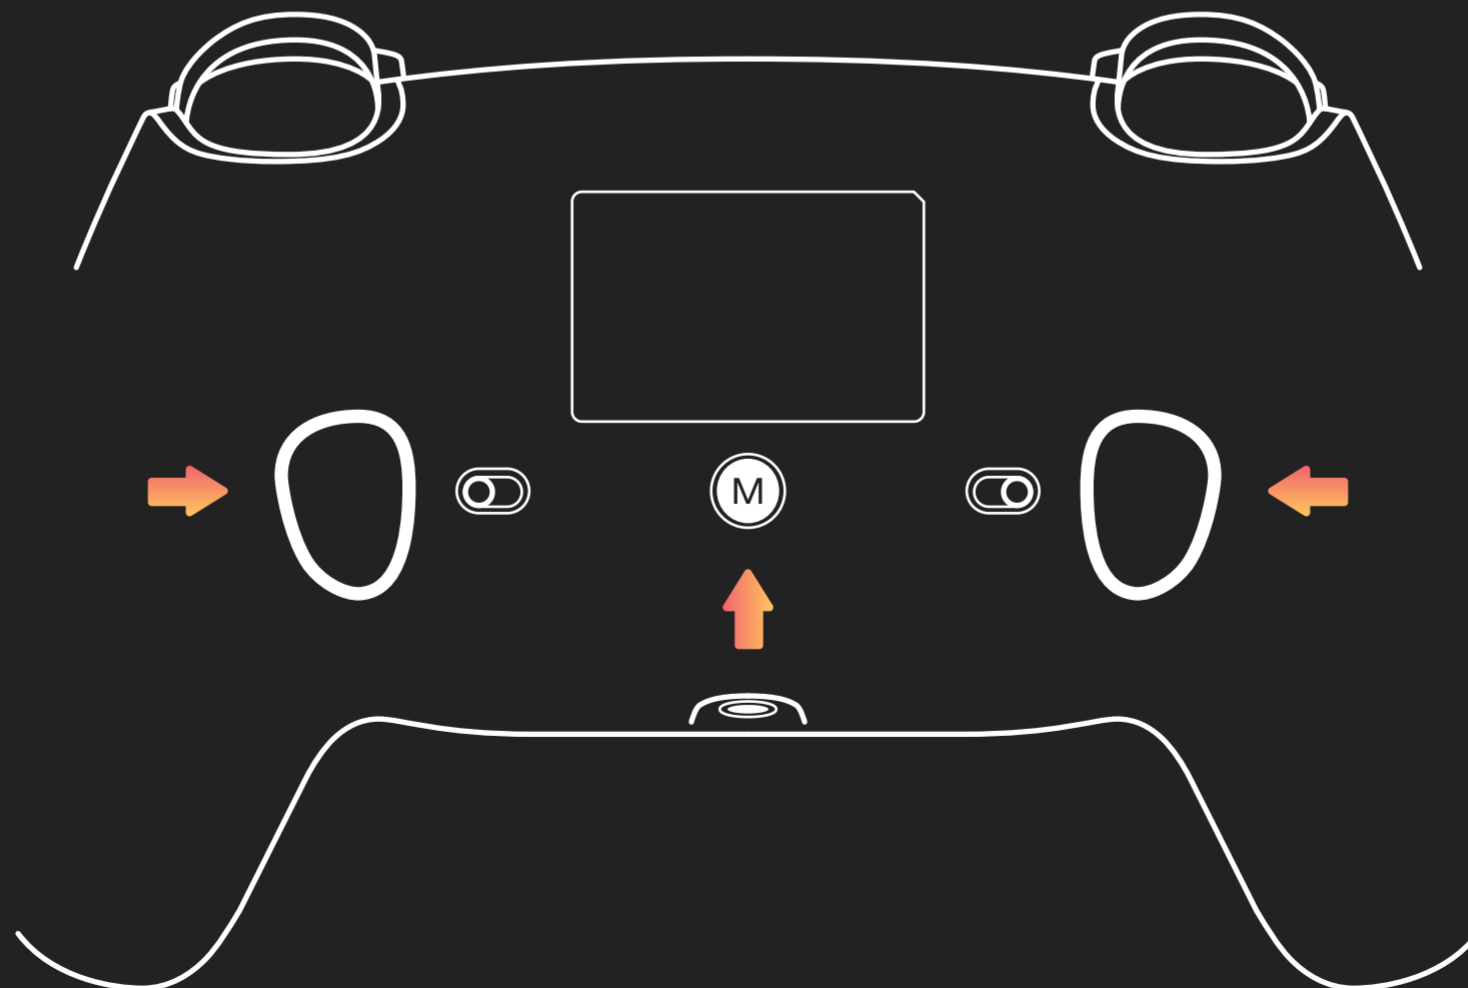

WAKING UP YOUR XBOX CONSOLE USING THE COMPETITOR

If The Competitor is plugged into an Xbox console, you may turn on the console by clicking the Nexus button on The Competitor. After doing so, the console will turn on and the controller Nexus button will illuminate (this may take a few seconds).

Your controller is now ready to use.

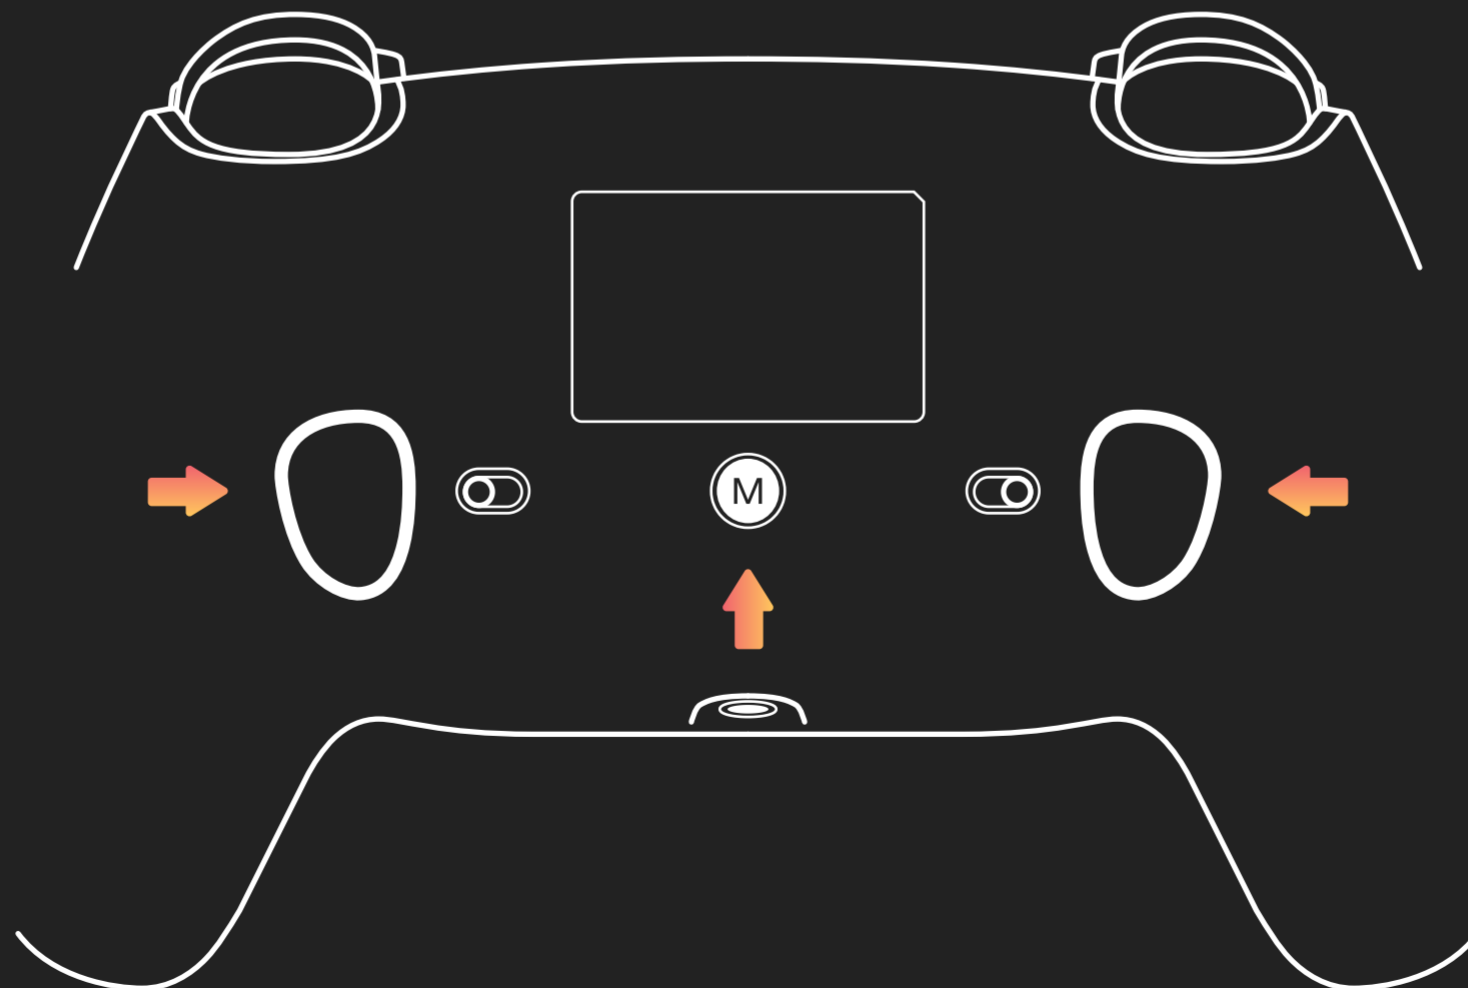

PROGRAMMABLE BACK BUTTONS (MAPPING)

To map a button to a back button, hold the Mode Button (marked "M") on the back of the controller, and your desired back button (M1 or M2) at the same time. The Competitor will vibrate, and the ring light around the Nexus will begin to flash. Release the Mode Button and back button. The Competitor is now in "mapping mode". Next, click the button you would like mapped to your desired back button. The Competitor will vibrate again, indicating that you have exited "mapping mode" and the selected button has been mapped to your desired back button.

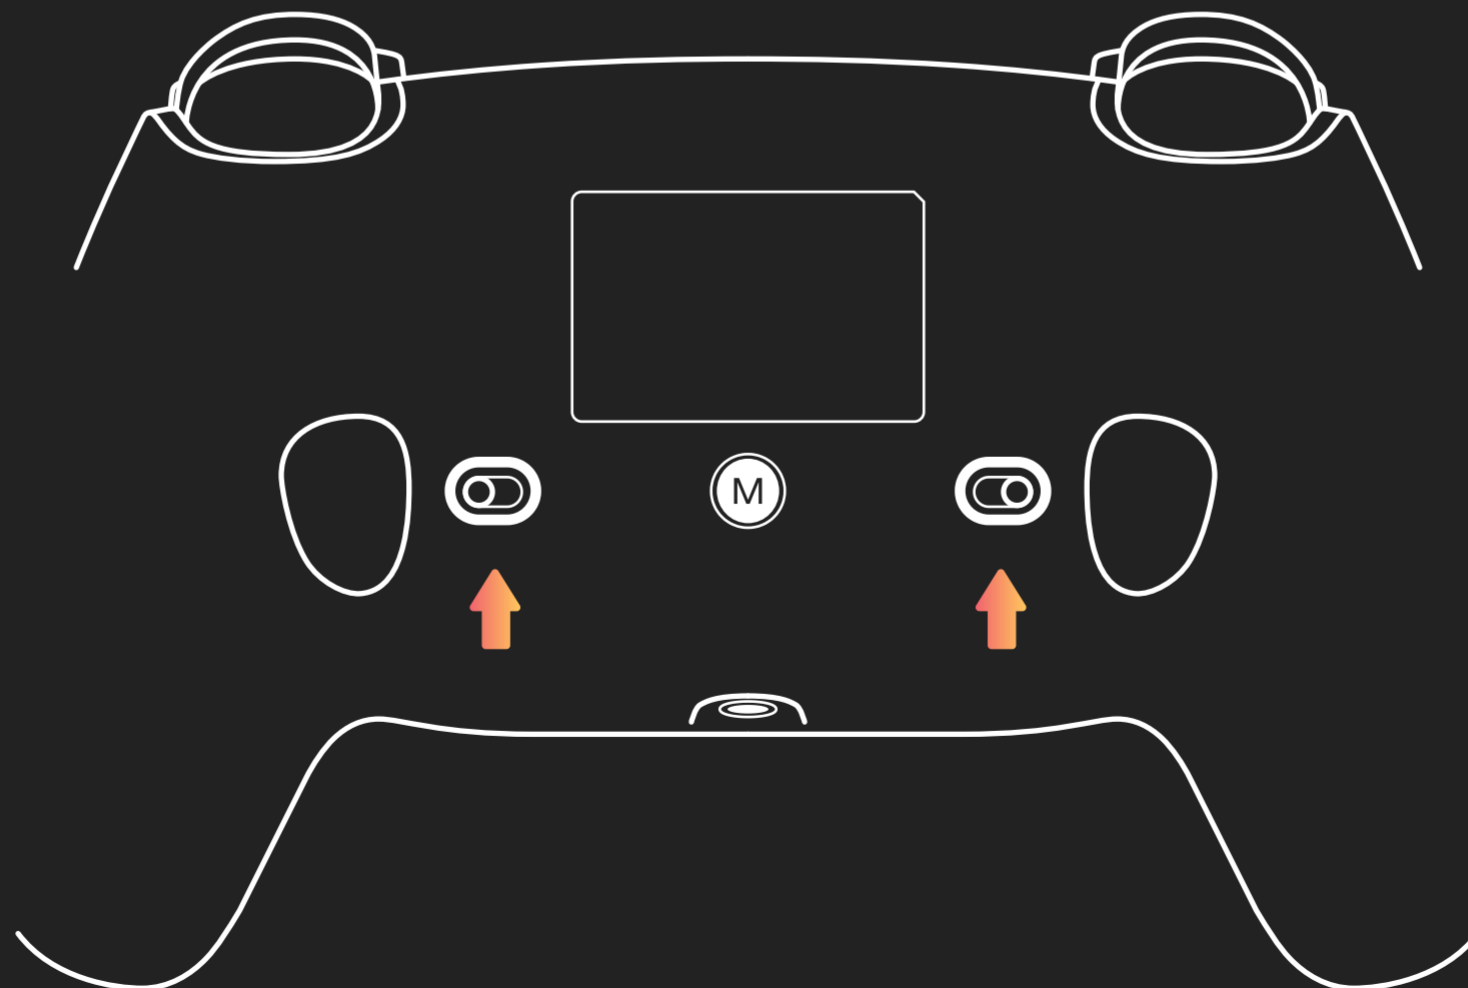

PROGRAMMABLE BACK BUTTONS (UN-MAPPING)

To un-map a button from a back button, hold the Mode Button (marked "M") and your desired back button. The Competitor will vibrate, and the ring light will begin to flash. Release the Mode Button and back button. The Competitor is now in "mapping mode". Next, click the same back button. The Competitor will vibrate again, indicating that you have exited "mapping mode" and a button is no longer mapped to that back button.

BACK BUTTON LOCKS

To disable back buttons, slide the switches on the back of The Competitor inwards towards the “locked” indicator to lock the back buttons. Slide outwards to unlock.

REMOVEABLE STICK CAPS

Grip and remove the stick caps in an upward motion. To set new stick caps onto the sticks, align the smaller teeth on the stick caps with the notches on the stick. Press down on the stick caps until they click into place.

HEADSET

Connect your headset audio jack into the bottom of The Competitor.

MIC MUTE BUTTON

Double-tap the Mute Button (microphone symbol) on the front of The Competitor to mute the microphone on a connected headset. An orange glow indicates that your microphone is muted.

FCC Notice

This equipment has been tested and found to comply with the limits for Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio TV technician or email Support@Hyperkin.com for assistance. Shielded cables must be used with this unit to ensure compliance with the Class B FCC limits.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Statement of Compliance with EU Directive

Hyperkin Inc., located at 1939 West Mission Blvd, Pomona, CA 91766, declares under our sole responsibility that the product, Hyperkin Xenon Wired Controller, is in compliance with the essential requirements and other relevant provisions of Low Voltage Directive (LVD) 2014/35/EU, RoHS Directive 2011/65/EU, and carries the CE marking.
