Hylat Baby

GB

INSTRUCTIONS for baby bath. IMPORTANT! READ CAREFULLY AND KEEP FOR FUTURE REFERENCE. Compliance with safety requirements.

Familiarise yourself with the user guide before your first use of the product. Use the product only as described and for the indicated purposes.

The product is intended for use by children in the private interior only.

⚠ WARNING - DROWNING HAZARD Children have drowned while bathing. Children can drown in as little as 2 cm of water in a very short time. Always remain in contact with your child during bathing. Never leave your baby unattended in the bath, even for a few moments. If you need to leave the room, take the baby with you. The product does not include any additional safeguards to protect a child from drowning. Always use this product under adult supervision. Small children may not play unattended near the product. Babies and young children are at risk of drowning when being bathed. Never use this products on an elevated surface not intended for this product. Do not use the baby bath on raised surfaces such as table tops. Never hang the baby bath by its sides between two other objects. When using within a normal, household bath never use any other platforms or supporting aids, e.g. bath stands. To avoid scalding by hot water, position the product in such a way to prevent the child from reaching the source of water. Always check the water temperature before bathing the child. Recommended (maximum) bath water temperature is 37° C. Recommended bath time is 10 minutes. Always check the stability of the product before use. Make sure that the baby bath is used only on horizontal, stable and non-slippery surfaces. Do not use the product if any components are broken or missing. Do not use replacement parts or accessories other than those approved by the manufacturer. A child must be placed in the bath so that its head is positioned above the rest of its body. Never place the baby bath near an open fire or other strong heat sources (such as electric or gas heaters). Applies to the version sold with a bath chair: Bath chair can be used up to when your child can sit unaided. Only use the bath chair in a compatible children's bath tub. Always check the attachment and the stability of the non-standalone bathing aid on the bath tub.

MAX Maximum depth of water during bath may not exceed 10 cm.

0-12m, max 25 kg: The product is suitable for children between 0 to 12 months who cannot sit upright independently! Maximum total load 25 kg. Suitable for children with a max. weight from 9 kg.

CLEANING AND CARE INSTRUCTIONS: Clean after every use. It can be cleaned with a gentle ordinary household cleaning agent such as soapy water. To avoid damage, do not use bleach or abrasives and abrasive sponges or brushes. Dry after use or cleaning.
