A LEGO Technic assembly step showing a completed frame with a central vertical support and two horizontal beams. Red arrows point to the bottom corners of the frame, indicating where to attach the next piece. A small white box with the number 11 is in the bottom right corner.

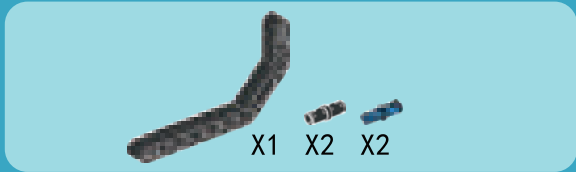

892

The image shows a completed LEGO Technic assembly, which is a complex mechanical structure. It features a central vertical column with a horizontal arm extending from the top. The base is a rectangular frame. In the bottom left corner, a new base is being added, indicated by a red box with the number 11. Red arrows point from the new base to the existing structure, showing the connection points.

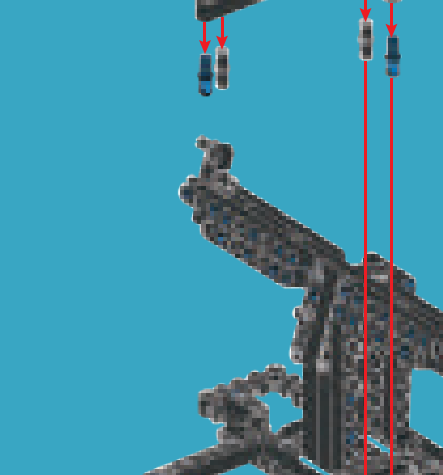

893

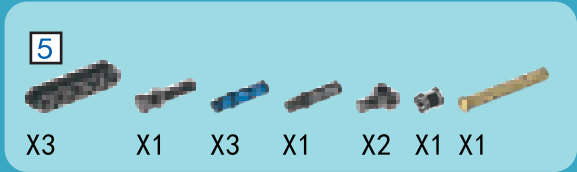

This image shows the completed assembly for step 893. The structure consists of a base made of grey Technic bricks and beams, with a crane arm extending upwards. The crane arm is made of dark grey Technic beams and has a hook at the end. Red arrows indicate the placement of parts, showing the assembly of the crane arm and the base.

894

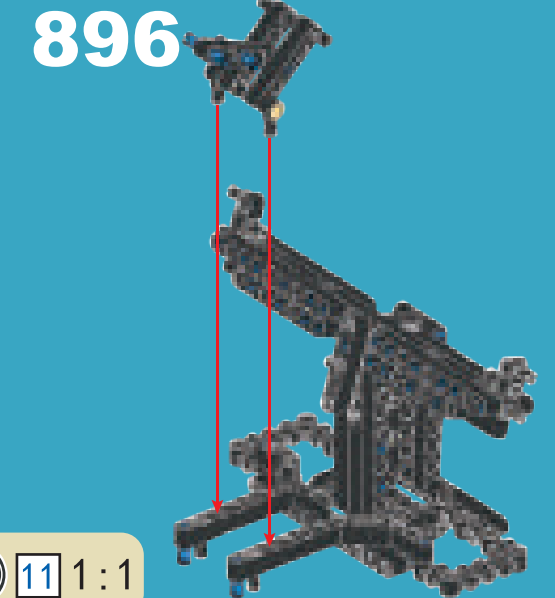

63

895

Diagram illustrating the assembly of the rear axle. A yellow arrow points from the chassis to the rear axle assembly. The rear axle assembly consists of a black Technic axle with a blue motor at one end and a black Technic axle with a black Technic axle connector at the other. A yellow arrow points from the chassis to the rear axle assembly. A yellow arrow points from the chassis to the rear axle assembly. A yellow arrow points from the chassis to the rear axle assembly.
